

## STARLINE MARINE LTD – BUILDING BOATS FOR 30 YEARS

Starline Marine have now been building boats for more than 30 years. Built in cooperation with you the customer we provide bespoke steel boats to your personal specification including Narrow Boats, Wide Beam, Dutch Barges and Commercial Trip Boats. All boats are built to the highest standards in a wide range of luxury finishes. Through constructing our own hulls, we have been able to ensure the highest standard of craftsmanship from start to finish.

Recent years have seen the building premises move to a dry workshop ten miles west of Worcester. This has enabled production to increase, and a number of areas of the build to be brought 'in house.' What does this mean for you the customer? Further savings we are able to pass on as we continue to endeavour to produce bespoke boats at prices to match or beat standard build prices seen elsewhere.

Our experienced team of craftsmen are able of working to any specification, and provide a finish to suit every customer, from ultra modern city living to a 'traditional' canal boat finish.

We always welcome people to visit us at our workshop premises, where current projects may be viewed, we also have recent projects to view nearby at Upton-upon-Severn Marina (our hire fleet base) Any visit , price or specification is always handled and offered on a no obligation basis – we are always happy to talk boats!

*Exceptional Quality - Competitive Prices*

## STARLINE MARINE LTD – BUILDING BOATS FOR 30 YEARS

Shown below are a few recent examples of the creative design, outstanding craftsmanship and attention to detail that goes into each and every one of the boats we produce.

### RECENT PROJECTS

#### “NORTH STAR”

60 ft narrowboat

Starline Hire Fleet boat

‘North Star’ was added to the Starline Narrowboats’ hire fleet in 2010.

The boat was designed with flexibility of layout in mind, it provides a real solution to providing a boat which can suit multiple families, groups of friends or just as a spacious hire boat for a single family.

The light, bright ash interior is complimented by inlayed sapele to provide a touch of elegance often not seen in hire fleet boats.

#### “SWINTON SPIRIT”

48 ft x 10 ft

Day Trip Boat

The specification for Swinton Spirit was a well finished, durable boat for use by groups of children (some disabled)

The boat houses two electro-hydraulic lifts to enable full disabled access. The boat also features a detachable remote steering system with joystick control.

#### “ROMAN”

54 ft x 9 ft

Private Liveaboard

‘Roman’ was a private disability adapted build. It combined practical disability features such as a Remote Steering System, with home comforts including a solid fuel stove (pictured above) Meticulous design ensured the two were well balanced to produce a beautiful, functional boat.
